## Corrigendum

## Corrigendum to “New insights into the mechanics of fluvial bedrock erosion through flume experiments and theory” [Geomorphology 244 (2015) 33–55]

Michael P. Lamb <sup>a,\*</sup>, Noah J. Finnegan <sup>b</sup>, Joel S. Scheingross <sup>a</sup>, Leonard S. Sklar <sup>c</sup>

<sup>a</sup> Division of Geological and Planetary Sciences, California Institute of Technology, Pasadena, CA, USA

<sup>b</sup> Department of Earth and Planetary Sciences, University of California, Santa Cruz, CA, USA

<sup>c</sup> Department of Earth & Climate Sciences, San Francisco State University, San Francisco, CA, USA

The authors regret for the typos in values reported on page 38.

Young's Modulus,  $Y$ , was reported as  $5 \times 10^5$  MPa, but should be  $Y = 5 \times 10^4$  MPa. The coefficient  $k_v$  in Eq. (10) was reported as  $10^6$ , but is actually  $5 \times 10^5$  due to a constant of  $\frac{1}{2}$  that appears in Sklar and Dietrich

(2004) definition of  $e_v$ , which we subsume in our definition of  $k_v$ . The coefficient  $k_y$  in Eq. (11) was reported as 2 MPa, but should be  $k_y = 0.1$  MPa.

The authors apologise for any inconvenience caused.
